Kristine

"Matthew is an excellent teacher! He is very calm and really good at giving you tips and making the most of the one hour class! He highlights the items you need improvement and the ones you already have been progressing with, make notes, send you videos to help you, etc. I really like his way of teaching! Totally recommended!"

Mercedes

"Matthew Campbell helped me pass the full licence test (it was an overseas conversion) even though I barely drove, since I had it, in 13 years (on the right side too). He has real teaching skills, heaps of patience, comes every time very well prepared, is thorough and always personalising his lessons. I also appreciate he is calm which makes a huge difference when learning to drive in Auckland. I felt progressing from one lesson to another and was worth every penny. I tried several instructors but Matt is by far the most professional one! Looking forward to take the defensive driving course with him next!"

Raluca

"I had Mathew Campbell. He had a friendly and welcoming demeanor which I really appreciated. His advice was thorough. After the lesson, I was given feedback, including videos for how to improve and mistakes I made, which was great. I would recommend him."

Mercedes

"Today's lesson with Matt was better than my usual experience with previous lessons (with other services), I really enjoy his/the A1 approach to teaching and his nature is patient and generally easy going, this puts me at ease and makes me feel less anxious as I am someone who generally doesn't enjoy "lessons" of any kind, being told what to do is not my strength. But I am learning. :)"
